

ROADMAP

Interactive education tools

Mentimeter

Mentimeter is an application that makes it possible to make lectures more interactive. This can be done by submitting a statement and testing prior knowledge.

If you want to get started right away, go to www.mentimeter.com, click on Log in, choose SSO and enter at company Hanze.

If you want to know more, click on the i

Microsoft Whiteboard

Microsoft Whiteboard is a whiteboard as you are used to physically, but online, where everyone can watch, write and participate at the same time.

If you want to know more, click on the i

Record with PowerPoint

PowerPoint recording makes it possible to record presentations. In this way, presentations can easily be converted into a flash lecture.

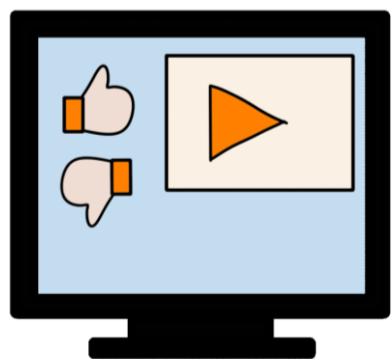

If you want to know more, click on the i

Padlet

Padlet is a digital bulletin board on which you can post text, photos, videos, links and files alone or together with others. The created pin boards can easily be shared with students and colleagues.

If you want to know more, click on the i

Presentations2go

With Presentations2go students can upload their own videos, provide them with feedback and ask a fellow student for feedback. Finally, it is possible to submit the video to the teacher for assessment.
