

Examination Planning Exchange Students 2019-2020

A student has the chance to take part in an examination twice per academic year: at the end of the block and in the resit of the following period. You have to register for all the exams in Osiris (<https://osiris.hanze.nl/student>). This applies to the written and the oral examinations. In the schedule below you can find the Examinations and Resits. If a student fails the exam he still has (at least) in the academic year one more opportunity to take the resit. This possibility is in the resit week for this purpose. This applies to the written and oral examinations. A course part consists sometimes of several subcomponents.

The results of the examinations or the final reviews will be registered in Osiris under appropriate course codes (with a maximum of 10 per block – see the curriculum overview). The results of ongoing assessment will lead to a final result to be published on Blackboard Learn ([Blackboard Learn: tab Courses → Instituut voor Marketing Management → Algemeen IMM → Course for Exchange Students - School of Marketing Management → Year Plan & Examination Planning](#)).

Week number	Examinations	Resits
45	Block 9	
4	Block 10	
6		Block 9
8		Block 10
15	Block 11	
25	Block 12	
27		Block 11
28		Block 12
