

### **Thematic Minor Sport Studies (AS or SS)**

The thematic minor is a minor which is composed of subjects that relate to three values of sport (economic, health and social) and which the student has to select in consultation with the supervisor of the department of Sport Studies.

Exchange students have to choose one out of the following three challenges: International events, Active Lifestyle/blue zones or International vital cities (each 10 ECTS credits). The challenges have accompanying practical and theoretical modules and form an essential and compulsory part of this programme. The final year concerns a professional year of 60 ECTS credits and cannot be chosen.

Both first year and major are composed of compulsory modules and each year students have to choose from optional elective units (5 ECTS credits). If you want to participate in a thematic minor please contact Dr. Gerco van Dalfsen ([g.van.dalfsen@pl.hanze.nl](mailto:g.van.dalfsen@pl.hanze.nl))
