

Where are we on the map?

Groningen, the Netherlands

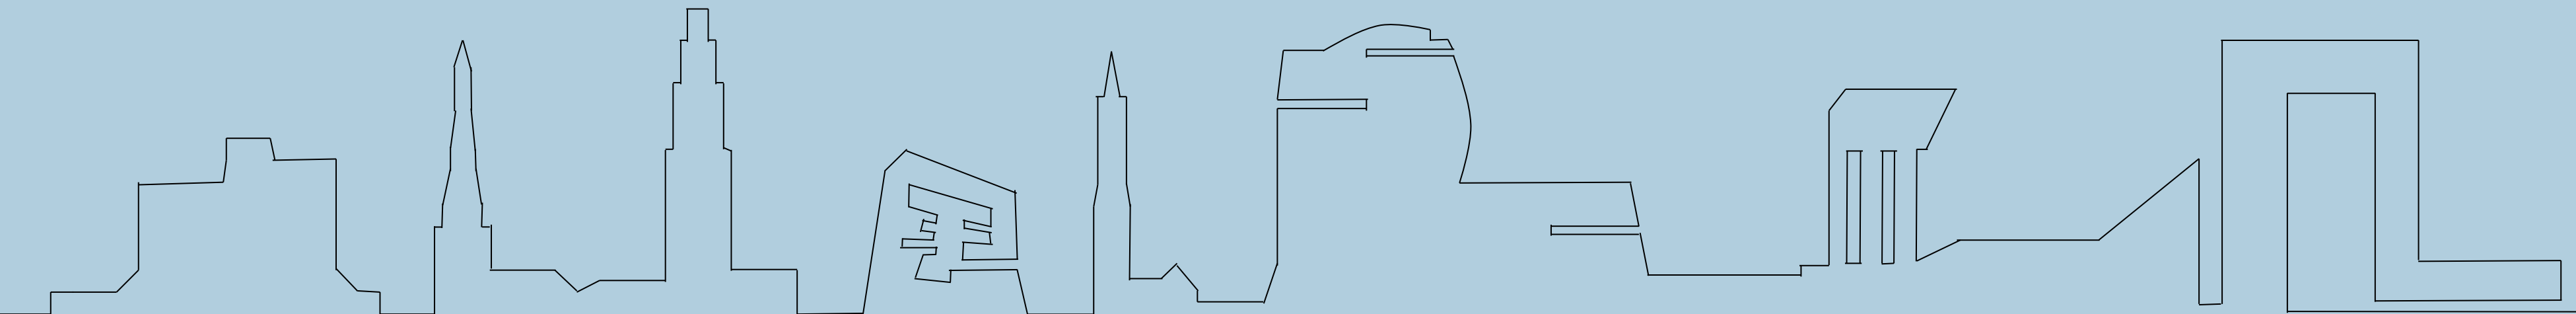

Why international students choose the Netherlands?

- Top-ranked for English proficiency among non-native speakers
- Safe, inclusive, and one of the happiest countries globally
- High-quality education with great value for money
- A gateway to Europe
- Strong career prospects in an international job market

About Groningen

- Population: 238,147
- Students: 61,110
- The best student city: highly ranked in terms of safety, sport facilities, quality of water and air, etc.
- Art, history and culture: among the cultural capitals of the Netherlands
- City of Talent

What students often
tell us:

"Everything is within 15 minutes."

"It feels like one big campus."

"It's easy to make international friends."

"There is always something to do"

We are Hanze

For over two centuries:

Socially engaged and committed

Inextricably linked to the region

The place for development and progress

Found in 1798, from the first lesson there is a continuous and uninterrupted line to the current Hanze. Hanze is therefore the oldest comprehensive university of applied sciences in the Netherlands.

About Hanze

International Community: 30 000 students, 10% of which are coming from more than 115 countries around the world.

Practical Education: Focuses on hands-on learning, internships, and real-world projects.

Focus on entrepreneurship as recognised by U-Multirank: many alumni start their own business

Learning at Hanze

Hanze Educational Concept

Together

Learning from and with each other

Practice-oriented

Learning and innovation in and with the professional field

Societal relevance

Learning to be equipped for society

Learning and innovating with the professional field

Hanze Educational Concept

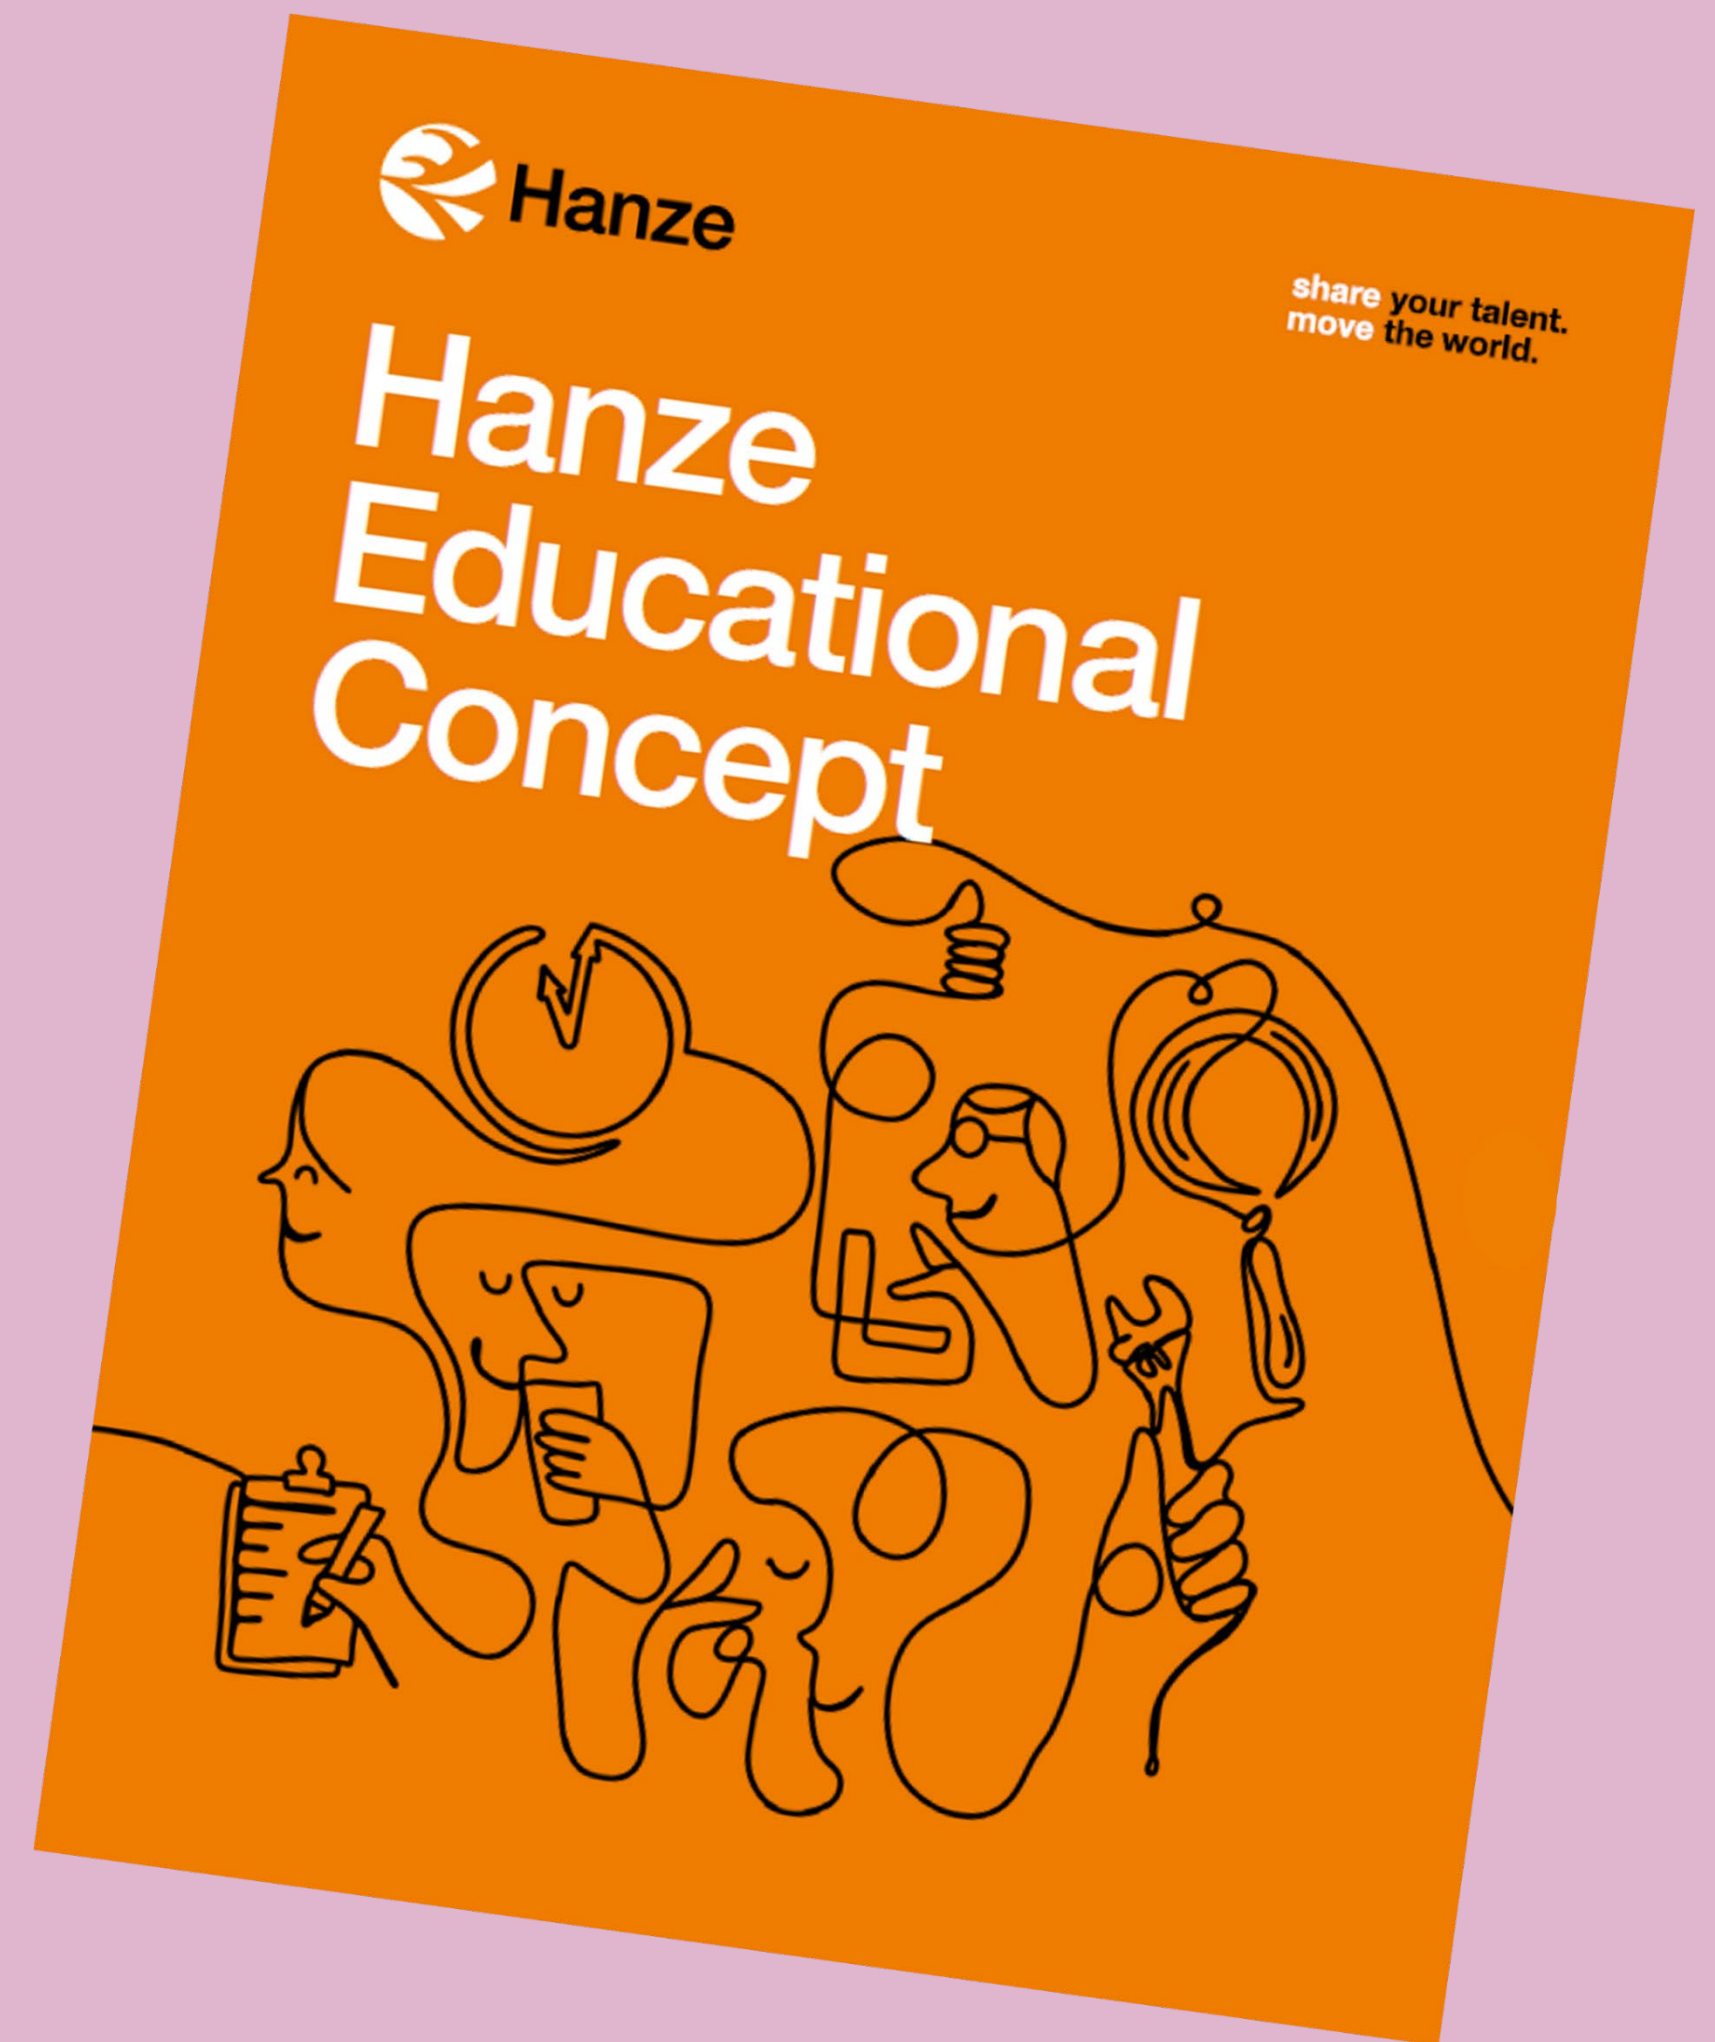

Innovation hub

This is where education, research and practice come together. The 'home' for learning and innovating together with the professional field.

Curious about our policy
for education and
research?
